Teaching with Historic Sites Fieldtrip Grant Program Summary & Information

The Teaching with Historic Sites Field Trip Program is a Guam Preservation Trust sponsored program for educators to transport their students to historic sites in Guam while executing a lesson plan that has been prepared for the respective site.

Guam Preservation Trust will provide full funding for (2) two buses per educator per school year for the purpose of exposing students to historic sites in Guam, nurturing an appreciation of preservation sites in Guam, developing a sense of stewardship for historic and cultural preservation, and increasing the understanding of the importance of national historic resources.

We look forward to partner with you to enrich, inspire and encourage the children of Guam to become stewards of preservation.

Getting Started:

Elementary, middle, and high school educators who would like to apply for field trip funding can get started by doing the following:

- Choose an approved lesson plan for a Guam-registered historic site ([click here for the full list](#)). Lesson plans may come from the *Teaching with Historic Places: Ekungok i Estoriata Education Series* (www.estoriata.org) or a similar lesson plan that we can review and approve.
- Complete the application form and attach your proposed lesson plan.
- Make the site visit arrangements, including any advance reservations required by the location. Guam Preservation Trust will sponsor up to two (2) buses per field trip, but teachers will handle the scheduling and bookings.
 - Please note: some historic sites or areas may have limited accessibility for individuals with mobility needs.
- Obtain three bus transportation quotes, as public funds are used for this program.
- Submit your application.
- After your trip, share a short project report describing how the lesson plan was implemented.
